

QHSE POLICY

Q – Quality

The quality must be top notch and we will deliver the best individual rubber solution through professional advice, credible sparring, effective management, high quality and great flexibility. This is done by using the quality management system ISO 9001: 2015.

The RG Rom Gummi management group are deeply committed to the system and will systematically and periodically monitor the system. Managers as well as employees work according to the management system

Quality policy

We will supply products that meet our costumers' expectations, requirements and specifications.

We will give our customers a flexible, quick and effective service.

We will continue to improve and develop our company in compliance with ISO 9001:2015

HS – Health & Safety

We take good care of our employees and pay big attention on health and safety. Our goal will always be zero work incidents, accidents or occupational diseases. In addition, we of course follow applicable laws and regulations regarding health and safety.

The management and the working environment committee continuously improve the work environment and safety for all employees by keeping up to date in all areas that can improve this.

- Employer wellbeing conversations
- Employee development planning.
- Registration of near misses, incidents and accidents.
- Workplace assessments
- Continuously improvement of protection equipment.
- Chemical work assessments/risk assessment.

E – Environment

Environmental awareness is an important issue for us. We want to take care of our employees and customers as well as the environment and the future generations.

We will strive to take as much as possible care of the climate and environment. In order to obtain this, we will continuously improve and optimize the entire RG Group in the daily operation as well as in future optimizing and layouts.
